

WHAT IS EMBARK RAPID?

EMBARK's transit family will soon include a bus rapid transit (BRT) system. *RAPID* will bring high-frequency, premium transit service to central Oklahoma. *RAPID* is expected to launch in Fall 2023.

RAPID will expand local and regional mobility options through faster and more frequent service with enhanced vehicles, stations, and passenger amenities. *RAPID* connects downtown Oklahoma City and the Lake Hefner area, serving regional medical centers, commercial centers, the downtown city center, and residents along the Classen Boulevard and Northwest Expressway urban arterials.

9.5 MILES EACH WAY

32 platform STOPS
