

DESTINATION FORWARD

EMBARC is Oklahoma City's transit provider, offering bus, ferry transit, bike share and downtown parking solutions in the Greater Oklahoma City area. Our transportation options connect people with their community, while easing traffic congestion and reducing air pollution.

WHAT'S NEW AT EMBARK?

- Re-aligned bus routes and night service increase connectivity and efficiency AND provide a solid foundation for future transit enhancements.
- Buses travel major arterial roadways, which means 30 minute service on most routes and two high-performance 15 minute service corridors.
- Technology has a new seat on the bus! Check out our onboard WI-FI, real-time info, mobile tools and a journey (trip) planner!
- Enhanced bus stops and shelters are rolling out and are loaded with detailed route information creating more confident riders.

DID YOU KNOW THAT 50 PERCENT OF OKC TRANSIT RIDERS ARE TRAVELING TO WORK OR SCHOOL?

ABOUT US

The Central Oklahoma Transportation and Parking Authority was established in 1966 as a Public Trust, pursuant to Title 60 of the Oklahoma Statutes, Section 176, et.seq., to operate and maintain the public transportation and parking systems for the metropolitan Oklahoma City area. The City of Oklahoma City is the sole beneficiary of the Trust.

Doing business as EMBARK, the organization is responsible for planning, constructing, owning and operating passenger transportation systems and downtown parking facilities. EMBARK provides a cost-efficient transit network by fostering relationships, developing public/private partnerships with Greater Oklahoma City communities and promoting the use of transit oriented development policies.

EMBARCK

AT A GLANCE

TRANSIT FLEET & SERVICE PROFILE

FORWARD TOGETHER

KEEPING THE REGION MOVING WITH TRANSIT

In 2012, COTPA and the OKC City Council hired Nelson/Nygaard – an award winning transportation

planning firm – to conduct a study that reviewed, evaluated the operating efficiency of the current system and make recommendations for improving its public transit system without any additional resources or funding.

COTPA approved a new strategy in fiscal year 2014 for providing transit services in the greater Oklahoma City area. Plans to realign bus routes, improve weekday frequency, and rebrand its family of services were implemented in late April 2014.

SYSTEM IMPROVEMENTS INCLUDE:

- 30 minute frequency on nearly all weekday routes
- Two 15-minute high-frequency corridors
- Replaced more than 2,000 bus stops
- Four night routes running until midnight
- Installed nearly 50 modern bus shelters

ENHANCED CUSTOMER INFORMATION

- Launched Rider Tools including real-time arrival information via text and wayside signage
- Developed responsive mobile website
- Introduced customer-facing journey planner
- Released improved route maps and schedules
- Launched EMBARKConnect customer app
- Launched WI-FI on all buses

IMPACTS TO RIDERSHIP

FY16 finished with more than 3.1 million passenger trips- a 19% increase in ridership since FY11.

Total Cumulative Ridership by Fiscal Year

REGIONAL TRANSIT

In 2005, COTPA conducted a Fixed Guideway Study of the Central Oklahoma region. As a result, a Fixed Guideway Plan was developed and is the necessary foundation for the establishing a regional transit network.

In 2014 state legislation was passed to allow an RTA to draw taxing boundaries by precincts for the purpose of establishing dedicated funding for operations and some capital projects.

In August 2015 six metro area cities executed a MOU for the creation of a regional transit authority (RTA) for building a regional system.

CURRENT PROJECTS

- CNG Fleet Transition & Fueling Station
- MAPS3 Modern Streetcar Construction
- Market Studies of Riders & NonRiders

GREATEST NEEDS

- Sidewalks to Transit Stops
- Improved Transit Stops
- Pedestrian Signals
- Bus Replacement & Expansion
- Bike Share Expansion
- Park & Ride Lots
- Facility Modernization
- River Ferry Landings
